CAREER OBJECTIVE

MCA candidate at Christ University with hands-on experience building full-stack applications using Java, React, and Spring Boot. Seeking a Software Engineering internship to apply strong programming and problem-solving skills, contribute to production-grade projects, and grow under experienced engineering teams.

EDUCATION

Master of Computer Applications (MCA) *Bengaluru, Karnataka*
Christ University, Central Campus

Bachelor of Computer Applications (BCA) *Tumkur, Karnataka*
Tumkur University | CGPA: 8.61

TECHNICAL SKILLS

Programming Languages: Java, Python, C, C++, JavaScript, PHP,R-Programming
Frontend: HTML5, CSS3, React.js, Bootstrap, Tailwind CSS
Backend: Spring Boot, Node.js (Basic),Express
Databases: MySQL, SQLite
Tools & Platforms: Git, GitHub, VS Code, Postman, Maven
Core Subjects: Data Structures, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

PROJECTS

Smart AI Recruitment System *Full-Stack Project*
Spring Boot · React (Vite) · MySQL · REST APIs

- Engineered a full-stack recruitment platform with secure authentication, candidate management, and a recruiter dashboard for end-to-end job and application tracking.
- Designed and implemented RESTful APIs in Spring Boot to handle candidate, job, and recruiter data, integrating seamlessly with a React (Vite) frontend.
- Structured a normalized MySQL schema to support candidate profiles, job postings, and application workflows.

ParkEasy – Smart Parking Reservation System *Full-Stack Project*
HTML5 · CSS3 · JavaScript · Tailwind CSS · Google Maps / Leaflet

- Built a responsive web application enabling users to search, view, and book available parking slots in real time.
- Implemented a slot booking and reservation system with dynamic UI updates using JavaScript and Tailwind CSS.
- Integrated Google Maps/Leaflet APIs to help users visually locate and select nearby parking spaces.

Train Ticket Booking System *Java Full-Stack Project*
Java · JDBC · MySQL

- Developed a Java-based ticket booking system supporting user authentication, seat booking, and cancellation workflows.
- Connected the application to a MySQL database for persistent storage and retrieval of booking records.

Skill Exchange Platform *Python Project*
Python

- Built a peer-to-peer platform enabling users to list, discover, and exchange skills with one another.
- Implemented user registration, skill listing, and search functionality to connect learners with mentors.

CERTIFICATIONS

- AWS Academy Cloud Foundations – Cloud Computing Fundamentals
- C Programming Certification
- IBM Cloud Essentials
- IBM Cloud Computing Fundamentals
- IBM SkillsBuild – Introduction to Cloud

ACHIEVEMENTS

Successfully developed multiple academic full-stack projects.

Strong understanding of Java, React, Spring Boot, MySQL, and REST APIs.

Hands-on experience in database design and web application development.

SOFT SKILLS

Problem Solving | Quick Learner | Communication | Team Collaboration | Time Management | Leadership | Adaptability
